

Virginia Kaufman Pain Research Challenge

A program of the Clinical & Translational Science Institute at the University of Pittsburgh

What is your solution to ease the burden of pain?

Complete each *character limited* text box on the following form. To complete the submission, log in to [Powered by PlnCh](#) to register your project and team and then attach your completed PDF file under Round 1.

Project Title

50 characters (with spaces)

Problem Statement

Describe the problem

350 characters (with spaces)

Solution Description

Describe your idea for a solution

350 characters (with spaces)

Novelty

How is your solution unique from existing solutions?

350 characters (with spaces)

Impact

How does your solution benefit health and well-being?

350 characters (with spaces)

Project Plan

Describe how the \$50K award would be used

350 characters (with spaces)

Team

Describe the team and expertise represented

350 characters (with spaces)
